

Code of Conduct

Everything starts with ethics and integrity.

Ethics is a daily requirement that must guide every decision we make.

We know that this process is extremely important and leads all our actions in the company. The robustness and complexity of the process can sometimes create ethical dilemmas, which require us to pay extra attention. Therefore, at moments like these, when we need to make decisions and develop judgments that have impacts for the company, the foundation must be solid.

This is where our Code of Conduct comes in. This document should always be used as a mechanism to assist our employees, administrators, and interns in their reflections.

Vale's Code of Conduct unfolds our company's values into ethical principles, which must be put into practice in small and big decisions. This is the only way will we be able to achieve our purpose: **We exist to improve life and transform the future. Together.**

Managing the Code of Conduct

The Code of Conduct is approved by the Board of Directors and is part of Vale's Ethics and Compliance Program, which is monitored by the Audit Committee, the Conduct and Integrity Committee and the Audit and Compliance Department.

3.1 Who does the Code apply to?

The Code of Conduct applies to Vale and its subsidiaries in Brazil and in other countries, employees, Administrators, interns, Suppliers and any person acting on behalf of Vale or its subsidiaries.

We encourage all organizations in which Vale holds a stake to adopt this Code of Conduct.

3.2 How should we apply the Code?

Ethics are a daily requirement; we must apply them in every decision we make. But to act with integrity and responsibility, one must have the ability to discern. The Code of Conduct should be used to assist decision-making by our employees, Administrators, interns and Suppliers.

Vale's Ethics and Compliance Program includes training on the principles of this Code of Conduct, with guidance on how to overcome dilemmas and make the best decisions in a responsible manner. Make sure you participate in these trainings and keep yourself up to date.

3.3 Questions

Vale fosters a culture of open and transparent dialogue. So, if you have a question about Vale's Code of Conduct, we recommend you do the following:

- talk openly with your direct manager;
- involve other leaders if your direct manager cannot resolve your question; and/or
- contact Human Resources to receive guidance and clarify questions.

If concerns persist, contact Corporate Integrity, the guardian of Vale's Ethics and Compliance Program.

3.4 Whistleblower Channel

If, instead of asking a question, you want to report a suspicion or a case of ethical misconduct, Vale's [Whistleblower Channel](#) is the right place to go.

The channel, which is operated by an independent company, was exclusively designed for this purpose and structured to guarantee confidentiality, protect whistleblower anonymity and protect the information for a fair investigation. The Whistleblower Channel offers all conditions for a report to be independently verified. Vale periodically discloses on the website the number and profile of the complaints received, ensuring full transparency in the process while maintaining the confidentiality of findings.

We handle complaints in an impartial and objective manner. If you decide to report a situation, make sure you provide as much information as possible to support your allegation and enable a fair and effective investigation. When an allegation is received, Vale mobilizes an entire corporate structure to conduct the investigation and, if necessary, hold those involved accountable. Under no circumstances will there be a breach of confidentiality, intimidation or retaliation against whistleblowers.

3.5 Consequences of violations

Every action has a consequence, and it is no different for ethical misconduct.

Any employee or Administrator who violates the principles of this Code of Conduct or other Vale policies and rules is subject to the disciplinary measures below, which will apply according to local laws and the severity of the violation:

- formal feedback;
- warning;
- training;
- suspension;
- dismissal; or
- other legal measures.
